STANFORD, KY., TUESDAY, JANUARY 17, 1893.

NO. 92

CHURCH AFFAIRS.

—All of the presidents of Georgetown College, eight in number, were ministers. All of them are dead.—Georgetown Times.

—There are more Catholics in this country than any other religious sect. They number 6,250,045 members, the Methodists claim 4,980,000 and the Baptists 4,300,000.

—It is to be regretted that Stanford is not included in Bishop Dudley's annual appointments this time. Our people can hear him at Danville Feb. 19, the first Sunday in Lent.

—Wm. M. Jackson was advanced to the priesthood by Bishop Dudley at the Colored Episcopal church in Louisville, Sunday. He is the first colored man so ordained in this diocese.

—A printed letter head shows that Rev. George O. Barnes has named his Sanibel Island, Fla., resort, Hotel Gilgane, which is formed from the first letter of the words of his gospel "God is Love and Nothing Else."

—As a result of Sam Jones' meetings at Hopkinsville, 23 persons joined the Methodist church, 13 the Presbyterian, 22 the Christian and 43 the Baptist, with many more converts to hear from. It is wonderful how blackguardism affects some people.

—Sam Jones knocked the bottom out of Hopkinsville's society. The Independent says that Germans and other once-popular social diversions are now matters of history, the majority of the young people having resolved, as a result of the revival, to give up dancing.

—Rev. Dr. Thomas, of Chicago, advocates the opening of the world's fair on Sundays. He says: "The fair is a school and a church for the exhibition of nature and man's progress and appeals to the intellectual and moral life of the nation. If the products of any State are not good enough to exhibit seven days in the week, let that State close on Sunday."

THE OLD TIME SLEIGH RIDE.

Sweet Susie Brown, my pretty one,
I'm sure you must remember—
It not for love, at least for fun—
The sleigh ride in December.
When all the bells and beaus,
In spite of frosts, would go forth,
And squeeze beneath the buffaloes,
Each other's hands, &c.

How brightly streamed the northern lights,
Above the snowy ridges;
How pleasant were those winter nights,
Observed from country bridges;
Where "toll" was sought with such address,
And laughter loud would peal forth,
While lovers felt, amid the press,
Each other's hearts, &c.

'Tis very singular and queer,
Of all the mad devices,
Love's flame should burn so bright and clear,
On fuel made of ices;
And yet we own its flame indeed
Most brilliantly would go forth,
When fanned behind a flying steed,
Hid under furs, &c.

I'm sure you mind the village inn,
The supper and the revel
How in the general dire and din,
Love shot his lances level;
And don't forget how Harry Kidd
Embraced you as he went forth;
You kissed his lips, you know you did,
He squeezed your hand, &c.

The wintry winds, the homeward way,
Blow chilly in our faces;
But underneath our furs we lay,
All snugly in our places.
One girl upon the forward seat—
The pretty Nelly Wentforth—
Declared Jack Frost, or Billy Frost,
Had pinched her cheek, &c.

Another underneath her robe,
(The buffaloes, not dresses),
Fair Patience with attendant job—
Detected in caresses—
Sprang up with angry, blushing face,
Her innocence to show forth,
But showed her curls all out of place,
Her collar gone, &c.

Dear Susie Brown, save you and I,
Of all that load of merriment,
Have we been induced to try,
Loves last and best experiment.
And when the coming snows shall spread,
And mutual hopes shall glow forth—
May Hymen bless the happy head,
Increase our joys, &c.

—Henry T. Stanton.

Just the Thing.

This is an expression the traveling public generally use when they find something that is exactly what they want. This expression applies directly to the Wisconsin Central Lines, which is now admitted by all to be "The Route" from Chicago to St. Paul, Minneapolis, Ashland, Duluth, and all points in the Northwest. Their double daily train service and fine equipment offers inducement which can not be surpassed.

This is the only line running both through Pullman First Class and Tourist Sleepers from Chicago to Pacific Coast Points without change. For full information address your nearest ticket agent or James C. Pond, General Passenger and Ticket Agent, Chicago, Ill.

For pains in the chest there is nothing better than a flannel cloth saturated with Chamberlain's Pain Balm and bound on over the seat of pain. It will produce a counter irritation without blistering and is not so disagreeable as mustard; in fact is much superior to any plaster on account of its pain-relieving qualities. If used in time it will prevent pneumonia. 50-cent bottles for sale by W. B. McRoberts, druggist, Stanford, Ky.

Brooklyn's Arnica Salvo.

It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by A. R. Penny, Stanford, Ky.

A cerate for wounds, cuts, sores, burns, scalds and the like: Resin 1 pound; clarified beef suet, 3 ounces; boil a quarter of an hour; add 2 ounces beeswax; boil for a half hour longer and allow to set.

—Cincinnati is in the throes of a small pox scare.

DANVILLE.

—Mr. Jeff Bowman is visiting his brother, Rev. B. L. Bowman, at Ripley, Tenn.

—The remains of Michael Liston, son of James Liston, who died of consumption at Harrodsburg on Sunday, were brought here and interred in the cemetery, after services at the Catholic church by Father A. J. Brady.

—A Danville, Ill., special to the Cincinnati Commercial Gazette of Sunday tells that Frank McFerran, colored, a native of Danville, Ky., and a slave before the war, froze to death at that place on the night of the 13th. The dispatch says that during the war he was a member of Co. G. 12th Reg't U. S. Heavy Artillery.

—Judge Sautley opened his first court in this district at Danville this morning. Mr. J. S. Owsley, the new prosecuting attorney, was also present. Judge Sautley charged the grand jury, which is made up of the following citizens: Wm. Cheek, foreman; J. W. Bolling, J. M. McGraw, John Stodghill, Thomas Gebhart, J. E. West, Evan Bolling, R. S. Salter, Wm. Pipes, Wm. Scott, George Martin, D. P. Rowland. The petit jury is as follows: Robert Harbison, B. F. Soper, J. O. Evans, G. R. Pope, Walter Fitzgerald, D. C. Purdon, J. B. Chinn, Wm. Hughes, Jerry Sandidge, William Myers, J. T. Hoskins, George Coulter, Thomas Cox, W. C. Crawford, Charles Caldwell, Edward Rust, R. S. Dunn, G. H. Withers, C. S. Jackson, Fleece Owens, J. W. Whitehouse, W. D. Finch. Up to the time this letter closed, 12 m., but little had been done, save call and continue, or dismiss a few criminal and penal cases. In the county court little or nothing was done, owing to the attendance of the sheriff and county attorney upon circuit court.

It has been the general understanding that millionaires were exceedingly scarce south of Mason and Dixon's line, but Editor Walton, writing of Richmond, Va., says: "Many large fortunes have been made there and millionaires are regarded as quite ordinary people." This speaks of the remarkable recuperative ability of the South. But 27 years ago the South was not only a financial wreck but in a condition ten times worse. At least 300,000 of its manliest men had fallen; thousands and tens of thousands of others had been wounded, or weakened by war's diseases; all had lost their fortunes; pre-existing conditions had been swept away; oppressive bayonet rule followed. And yet, notwithstanding all, the South has struggled to its feet again and its progressive marches and peace victories have challenged the wonder and admiration of the world.—Mt. Vernon Signal.

The coldest weather the world ever knew, according to several chroniclers, occurred during the year 1435. The frost was so severe during the month of May that skaters braved the ice without the least danger and on the 12th of May sleighs were generally used. On St. John's Day, the 24th of June, the winds were frozen and not a vestige of vegetation was to be seen anywhere. Spring was ushered in with the last day of June.

ANOTHER EDITION.—In consequence of the demand upon the Chesapeake and Ohio Railway for its souvenir book, a second edition of the humorous poems and sketches of Howard Saxby has been issued, a copy of which will be sent to any address by sending 10 cents in postage stamps to C. B. Ryan, Asst. Gen'l Pass. Agt., Cincinnati, O.

If twelve persons were to agree to dine together every day, but never sit exactly in the same order around the table, it would take 18,000,000 years at the rate of one dinner a day, and they would have to eat more than 470,000,000 dinners before they could get through all the possible arrangements in which they could place themselves.

Some ingenious editor has evolved the following: "Enough" is sometimes not enough. Take the third, second and first letters for the first word, the sixth, fourth and fifth letters for the second and you have something that is not enough.

The tresses that are attached to the heads of dolls are made of the hair of the Angora goat. Its product, which is controlled by an English syndicate, is said to be worth \$40,000,000 a year.

The limit of the capacity of the earth is 5,294,000,000 souls, says a scientist and this number will be reached in less than 187 years.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Platinum can now be drawn into wire strands so fine that 27 twisted together can be inserted into the hollow of a hair.

—John Cudahy, a Chicago millionaire, has bought the Farmers and Drovers' stock yards, in Cincinnati, and the capital stock will be increased to \$1,250,000 from \$200,000. Mr. Cudahy is the man who met Phil Ardnour on his own field and defeated him.

—Wm. Moreland has received a circular signed by the biggest sheep dealers in New York, stating that they find difficulty in disposing of buck lambs and suggesting that they be castrated. The dealers claim that by so doing 75c to \$1 more may be realized for them.

—During the last nine years the price of wheat in Cincinnati at the close of the year has ranged from 76 to 97½c, the average price being 87c. At the close of 1892 the price was 70c, 17 cents below the average price, 6 cents lower than any previous year, and 27½ cents lower than the highest.

—No woman can keep young who often loses her temper," says the great singer, Patti. "Every woman wants to keep young, but not every one tries to improve her disposition."

LIBERTY, CASEY COUNTY.

—James W. Bransom has been qualified as sheriff of Casey county and W. C. Adams has also been qualified as his deputy.

—Elder J. Q. Montgomery preached an able sermon to a respectable sized audience at the Christian church Sunday. The Elder has been employed to preach at this place the ensuing year.

—Miss Bettie Burke is now on a visit to Miss Bertha Elliott. Mr. Perry Smothers, on a late visit to this county after an absence of 12 years, returned to his home in Bourbon county with his little son last week. His sister-in-law, Miss Wilson, accompanied him.

—Early last Sunday morning the people of Liberty were startled by the announcement that the two prisoners, Geo. Deik, for the killing of Henry Pfenniger, and Tobe Gaddis, lately committed, charged with stealing \$60 from Sam Ford, had broken jail and had shaken the snow and dust of Liberty from their feet and departed for parts unknown. On examination it was found that they had burned a hole with two heated stove legs through the ceiling overhead, ascended by means of a small ladder used to descend to the dungeon part of the jail, cut a hole in the tin roof and descended to the ground outside by an ingeniously improvised rope made from their bed coverings. The bed covers were cut in strips of sufficient length to sustain their weights, then tied together in knots and strong twine and broom wire were wrapped tightly around the knots and tied securely to prevent the knots from slipping. As the hole in the roof was cut near its centre, it was necessary to make a very long rope to reach in safe distance of the ground.

HOW CAN A WOMAN TELL?

He told me his love this morning,
With his dear hand clasped in mine,
And he said: "God speed the dawning
When darling, I can call thee mine!"
But my fond heart questioned softly,
Though loving him true and well,
Will his love outlast any chances—
Ah! how can a woman tell?

When the years shall bring their trials,
And the cares and pains outweigh
The joys in the little household,
As clouds might obscure the day—
Will the hand that has held me fondly,
When madly I hid myself
As earnestly shield from sorrow?
Ah! how can a woman tell?

When the silver threads are creeping
Through my tresses, one by one—
When I lose my youth and beauty,
As many a wife has done;
Will his heart be mine as truly,
As when in the flowerly dell
He gave me his trusted promise—
Ah! how can a woman tell?

I glance at my sweetheart waiting,
His eyes that are clear and true;
"I will love him," my heart says gladly,
"I will trust him the wide world through,
I will be to him joy and comfort,
I will other wives excel;
I will keep him with love's magic—"
This much may a woman tell.

(Printed in loving memory of a devoted and true wife, from her own selections.)

The Chesapeake & Ohio Railway for the six months ending Dec. 31 earned all fixed charges and a surplus of \$400,000. Included in operating expenses for six months are an entire year's supply of rails and ties and a large amount for filling trestles, ballast and other permanent work. Improvements for the last four years have brought the road up to the highest standard, and it is now demonstrating what its friends have always claimed for it, viz: that when thoroughly modernized, as it now is, it can be operated cheaper than almost any other road in the country by reason of its low grades and exceptional location.

At Walton's Opera House on Wednesday, Jan. 25, the great and only Keley, supported by a great company, including London's famous prima donna, Lillie LaRose, will present Col. Theodore Hoppenheimer's London production of Widow Murphy's Goat, rightly termed a barrel of fun. It made all London scream with delight for 396 performances. Special new scenery painted by Seavy & Co. of New York city; also Props and Calicum Lights will be used in this performance. In fact everything that was used in the London production will be seen at the Opera House on the 25th. This is the same company that will appear at the Grand Opera House, Chicago, during the World's Fair.

—Though intelligently expressed, we applaud this remark of Sam Jones: "If you've got a pistol on you to-night, you dirty dog, go home and break it on your gate post, or kill a dog with it by committing suicide."

—Lawrenceburg having suffered severe loss from fires which had their origin in frame shanties and sheds, the council has passed an ordinance establishing "fire limits" and prohibiting the erection of frame buildings within them.

—At Louisville Pittsburg coal has jumped to \$5.25 per load and it is nearly impossible to get it at that figure.

—Miss Mattie Milton a young lady of Rowland, died Saturday of consumption.

—England is in fear lest hoops will be again the fashion.

EVERY FRIDAY.

The Midway Clipper says that after witnessing the performance of "Only a Woman's Heart" by the Lyon Comedy Co., Wm. Shipp, Jr., made up his mind to join the church and lead a better life. Accordingly he went to Preacher Lloyd's house and asking him told him his desire and asked to be baptized. The minister believing that the time to strike the iron is when it is hot, went with the young man to the Christian church and turning on the water into the baptismal, soon made him a demitition moist body and sent him on his way rejoicing at a little past midnight. The paper doesn't say, but the impression is that the play was so miserably presented that the youth lost all interest in sublimity affairs and decided to strike for bigger and nobler things. But it is the first case of the kind on record. Ordinarily when a man sees a poor show it makes him feel anything else than like getting religion. His first impulse is to massacre the whole troupe and if that is not practical he longs to try his marksmanship at each individual member with a well-decayed hen frisk for a missile.

Kissing is said to be one of the most delightful of the enjoyments of life, when the girl is pretty, has rich red lips and is willing. But with either of these lacking, it would appear to be on the contrary quite the reverse. Miss Annie Drinkard, a Cincinnati maiden, was possessed of two of the requirements, but she wasn't willing by a jugful, for Al Kuhn to kiss her, and because he did so she has brought suit for \$25,000 damages against him. They come high sometimes, but, as it seems, Mr. Kuhn must have 'em, it is hoped that the court will make him pay full price for this one.

The last election demonstrated that the democrats have a majority in this Congressional district over republicans, people's and prohibitionists of 678, the total vote being, democrats 14,001, republicans 11,951, people's 455 and prohibitionists 907. But even with such a majority it does not mean that any little whipper-snapper who offers for Congress can be elected. If McCreary is promoted to the Senate we must put up a fitting successor to him, or shut up and let the opposition send a man to represent us in the National Legislature.

RAUM has raised his estimate for pensions this year from \$165,000,000 to \$172,000,000. This means that \$200,000,000 will be needed to pay the army of pensioners, many of whose numbers have no claim on the bounty of the government whatever. It will take nearly half of the entire revenue of the country to pay the pensioners, and still it increases and multiplies. The democratic party owes it to the people to stick the pruning knife deep into the great and growing list of mendicants.

In a conversation with a Western Senator the other day Mr. Cleveland said of Senator Carlisle: "That man, in ability, in the capacity for profound thought and study, for accurately estimating the consequences of legislation, and in knowledge of legislation and in insight into financial and taxation problems, is without a peer, in my opinion, in the country." And as usual the president-elect is right. Senator Carlisle is the foremost statesman of his day.

SENATOR TURPIE, of Indiana, was re-nominated on the first ballot by the Indiana Legislature, getting all the votes but one, which was cast for his favorite by the man who nominated Editor Shanklin, of Evansville. Turpie, judging from his pictures, is not at all pretty and nobody claims that he is unusually smart, but he has a knack of getting there, which beats Eli himself.

For the first time in 109 years the boiling, seething waters below Niagara Falls are frozen over to within 50 feet of them, forming a complete bridge. To those who have seen the terrific commotion of the water as it leaps over the falls this seems almost incredible, as does the further statement that a number of people have crossed from one side to the other on it.

CASSIUS M. CLAY, JR., writes a card pledging himself and asking the other candidates to do likewise, not to use money illegally or improperly in the senatorial contest. Mr. Clay spent all the cash he wants to pay for office in his hunt for the gubernatorial nomination, and his assumption of virtue now is likely to produce equine exclamation.

Mr. CLAY's card stating that he would not use money in his race for Senator has stirred up the Legislature, which is disposed to resent the implied belief that its members can be bought up like dumb driven cattle, and two or more of his support have deserted him. For a man who makes any pretension to tact or sense, the publication of such a card was the sheerest idiocy.

The Little Rock, Ark., Gazette, of the 12th, contains Gov. James P. Eagle's farewell message to the Legislature. It is quite a lengthy document and treats of State affairs in a plain and business-like manner. Among his recommendations are those for the protection of State against dishonest officials, the abolition of the lease system, the supplying of the penitentiary with suitable manufactures for raw material, the encouragement of railroad enterprises, by every fair inducement and a liberal appropriation for the World's Fair. After listening to the message, the Legislature adopted resolutions thanking "our much beloved governor for his able, patriotic and statesmanlike message and sympathizing with him in his serious illness." The governor's wife was Miss Mary Oldham, of Kentucky, and as she has many relatives in Stanford, much interest has been felt in her husband's administration and in his present illness. Gov. Fishback was duly inaugurated Thursday.

The Nashville Daily American furnishes this hot matter as an offset to the cold weather. It is hardly necessary to state that Ben Butler is referred to. "The beast is dead. Early yesterday morning the angel of death, acting under the devil's orders, took him from earth and landed him in hell. In all this Southern country there are no tears, no sighs and no regrets. He lived only too long. We are glad he has at last been removed from the earth and even pity the devil the possession he has secured. He was a tracking demagogue whose selfishness amounted to pollution; used power to wreak personal revenge; he was mean and malignant, a hangman from prejudice, the insulter of women, the braggadocio and trickster, whose heart was as black as the smoke from the coals that are now scorching his soul."

CONGRESSMAN JOHN H. WILSON writes us that civil service examinations will be held in Kentucky as follows: Lexington, Tuesday, March 7; Louisville, Thursday, March 9; Bowling Green, Saturday, March 11; Barbourville, Friday, March 17; Louisville, Saturday, August 19. Persons desiring to be examined for clerkships in any department of the government or railway mail clerks, &c., should write to the secretary of the civil service commission, Washington, D. C. for blanks upon which to apply for examination. Such positions can only be obtained through such examinations.

The conflict in the Kansas Legislature has resulted in the breaking of the fusion agreement between the democrats and populists, owing to the radical course of the latter. The democrats, believing that the choice of two evils lay in acting with the republicans, are now doing so and the gratifying information is sent out that this will likely insure the election of a democratic U. S. Senator, a consummation devoutly to be wished, but which we are forced to believe is very remote.

The death of Senator Kenna makes the election of a successor incumbent on the present West Virginia Legislature, which is also charged with the election of a successor to Senator Faulkner. As there were only two candidates for Faulkner's seat, himself and Ex Senator Camden, the body can gratify the ambition of both by electing Camden to fill Senator Kenna's unexpired term and choosing Faulkner to succeed himself. The situation is less complicated than the one at Frankfort, in our own State.

The Kentucky democratic club at Washington has reorganized by the election of N. T. Crutchfield president, J. W. Pulliam, vice-president, and a full quota of officers. Touching resolutions on the death of Col. Samuel A. Walton, the former president of the club, were adopted and his virtues highly extolled. Col. Sam Walton was indeed a most lovable man and his future was as bright as any man's, till death loving a shining mark, claimed him for his own.

Gov. TURNEY, of Tennessee, was inaugurated at his home in Winchester yesterday. Owing to his illness the Legislature passed a resolution providing for it, which was approved by Gov. Buchanan, somewhat under protest. This is the first instance in that State of the inauguration of a governor outside of the State capital.

JUDGE LYNCH is said to have executed 233 persons in the United States last year, an increase of 41 over 1891. Of the number 231 were men and five women. Lynch law is always to be deplored, but it is better than no law, and will continue to be resorted to when the legal machinery of the country fails to act.

ACCORDING to the Voice, the prohibition candidate for president received 270,710 votes. This is doing pretty well, but where are the rest of the million people who pledged themselves to vote that ticket? It isn't possible that 720,000 of them lied deliberately, and with malice aforethought!

CLERK KELLER reports to the House that there are 18 bills on the statutes passed like the world's fair bill and as void as that was. This is a beautiful state of affairs for a body that has been in session for over a year at an expense of \$1,000 a day to the tax-payers.

"It beats looking up a rope any way," was Gus Cole's laconic remark when a Chattanooga jury gave him 99 years imprisonment for murder.

The Courier-Journal finds that its fast presses, thought at the time they were put in to be the fastest that could be invented, are inadequate to its demands, and Mr. Haldeman has ordered another. Hoe & Co. are to build it and it is to have a guaranteed speed of 48,000 an hour. The "old man," as he is affectionately called, never stands back when the demand for greater facilities in the Courier-Journal establishment exists, but always keeps it in the van of progress and first in the hearts not only of Kentuckians, but all the Southern people.

In the last presidential election the rotten borough known as the State of Nevada only cast 10,000 votes for all the candidates together, a falling off of 6,000 in four years. This isn't hardly a third as many votes as were cast in this congressional district alone. The republicans made a State out of the sparsely settled territory to continue themselves in power and it seems the irony of fate that even that handful of people should so soon go back on the g. o. p. Weaver got its electoral vote this time.

The Georgetown Times has just celebrated its 26th birthday, with the veteran John A. Bell still at the wheel, imparting to it his good, hard sense and making it not only one of the most reliable, but the most readable of our State exchanges. In its conduct he is ably assisted by his daughter, Miss Lila Bell, and son, Tyson C. Bell, whom he has trained in the nurture and admonition of high-toned journalism.

There is nothing new in the Senatorial situation at Frankfort, except that the race seems to have narrowed down to Brown, Lindsay, McCreary, Clay and Stone. The Courier-Journal is booming Brown and he may get the prize, but it is dollars to doughnuts that McCreary will contest with him every inch of ground and be close at his heels at the finish, if he does not come out a length ahead.

MR. CARLISLE has resigned his Senatorial seat to accept the treasury portfolio tendered him by President-elect Cleveland, to take effect Feb. 4. Balloting for his successor will begin on the 14th.

Go easy, Bro. Smith, or we will set that Billy Goat after ye.

THE Danville Advocate favors the building of the Stanford & Danville railroad, but would like to see some facts and figures produced. The promoters estimate that it can be built and equipped for \$100,000, but if the judgment of an old railroad man is worth anything, these figures are very far short of the mark.

OF the six white and three colored persons who offered for teachers this time all passed. Two of the whites received first-class certificates, one second and three third, while one colored got first, one second and one third. The Mt. Vernon Signal says out of 56 applicants in that county only six got first-class certificates, while 27 failed entirely.

UGHT TO DIE.—Charles Combs, a Madison county teacher, helped his pupil tie a Roman candle to a dog's tail. The candle did not fire for several minutes and Combs attempted to relight it, when it exploded, some of the balls of fire taking effect in his mouth. One struck with such force that it went down his throat and lodged in his stomach. Three physicians are constantly in attendance, but his recovery is doubtful.

BURNED OUT.—C. F. Perry, of Pleasant Point, writes to J. N. Menefee that his house and contents, together with his money, were burned last week. His family barely escaped and in going to a neighbor's in their night clothes several of them were badly frosted. Mr. Perry in attempting to save his household goods was badly burned. In his letter he asks Mr. Menefee to raise a contribution, as he is perfectly destitute of means of any kind.

WE imagine that our friend Walton at Stanford did some tall swearing when he waked up the other morning and found his paper dated inside and out "Friday, January 3, 1893." But printers will be printers and that's all there is to it.—Richmond Register. Fortunately we did not notice it till you called attention to it, or one more unfortunate might now be sleeping the sleep that knows no waking. We dislike to kill a printer, but it is our rule to do so for such offense, unless as in this instance our ire has had time to cool.

SUDDEN DERANGEMENT.—Will Wallace, son of John Wallace, the blacksmith, is in a demented condition, and there is a difference of opinion as to the cause. On Thursday last he returned from a visit to his sweetheart at Danville (and since then he has been totally deranged. He imagines himself away from home and fears that he is in danger. He will not speak to any one, nor will he pay attention to questions asked him. He goes to the doors and windows many times at night to see if they are securely fastened and talks to himself for hours at a time. He was heard to say that he would never take morphine again, but as he has never been addicted to that habit, it is not known what caused the remark. Toll-gate-keeper Dickerson did not recognize him on his return from Danville, as he was laying on the seat of the buggy and looked very blue. He supposed it was an intoxicated man and let him go through the gate free rather than bother him for toll. Some think that the severe weather and the cold ride caused the trouble, while others believe the result was occasioned by a reverse in love affairs.

REMEMBER M. F. Ekin pays the highest market price for furs, beef hides, &c., in cash.

THE Stanford Male Academy will begin its spring session Jan. 24. It now has an enrollment of 51.

I HAVE filled all of my houses with splendid ice and will be ready to supply my customers whenever they desire. I will meet any competitors in prices. Jas. P. Bush.

ITS stockholders here will be glad to know that the First National Bank of Florence, Ala., declared a semi-annual dividend of 3 per cent. and made it payable Jan. 20.

ATTENTION is called to the card of the new liveryman, W. C. Hutchings. He is here to build up a business and says he intends to do it, if fair dealing and nice service will secure it.

NEARLY all the water pipes are frozen and many have burst, making it pretty hard to get water in this part of town. We had to have it brought up in buckets for steam purposes yesterday.

JIM ED BRUCE, who inherits much of the trait of his uncle, Ed McRoberts, of never agreeing that anything of the present beats the past, says we had a good deal worse spell of weather than this in 1884 and that the mercury slid down to 22° below on the 15th of January that year.

THE Model Minstrels, Sweeney, Alvidio, Gorman and Goetz, arrived Sunday and got good and ready for the show last night, which promised to be largely attended if the people could venture out of warm houses to brave the cold. The parade was a good one and the music tip top.

MR. H. J. McROBERTS, who is now alone in the clothing and gents' furnishing goods lines, tells our readers something in another column that will be of interest to them. He is filling up with new goods and is determined to make his store the headquarters for such trade in this section.

Our correspondents, with one or two exceptions, seem to have frozen up. The editor is in the same fix himself, but the demerol grind has to go on all the same and the INTERIOR JOURNAL must come out on time or burst a flame string. And here she is, correspondents or no correspondents, news or no news.

THE officers of the local board of the National Building and Loan Association, organized last week, are: Col. T. P. Hill, president; E. C. Walton, vice-president; A. C. Sine, secretary and treasurer; P. M. McRoberts, attorney; Harve Helm, local agent. Messrs. J. E. Bruce, Joe S. Rice and Rev. Ben Helm are directors.

THE coldest wave of the season followed the heavy snow storm of Saturday and that night the mercury fell 27 degrees, registering next morning 7° below 0. It hovered around that neighborhood all day and till yesterday morning, when it was only 6° above. The sun shone brightly yesterday, but no thaw of consequence occurred, and it was still very cold when we went to press. "Fair, warmer" is the signal service prediction for to-day.

MATRIMONIAL MATTERS.

—JOS. Bell, a widower of three-score and ten, and Mrs. Martha Case, twice a widow, and 44, were married in Garrard.

—Statistics for 1892 show a large increase in the number of marriages, the result, probably, of the prosperous condition of the country.

—A Huron, S. D., preacher has written to a friend in New York that a car load of Irish girls can marry well by going to that place. The letter states that husbands are as plentiful as blackberries in July.

—Marriage statistics for Massachusetts for 1892 develop the fact that during that year in that ancient commonwealth 278 women married between the ages of 25 and 30, to 103 between the ages of 20 and 25 and 23 under 20.

—A well-matched couple have just been married in Green county, Texas. The groom had come out of the war minus one leg, one arm and one eye, which the rebels had shot away; while the lady had lost one arm in a fight with the Indians and had dropped one leg in a railroad accident. Apparently there is just about enough left of these two to complete the matrimonial one.

MR. C. D. HOCKER, of Guilford, Mo., one of our oldest subscribers, writes in this facetious strain:

Enclosed find \$4 to pay my indebtedness on paper, the balance for renewal of my subscription on same. If no balance send paper anyway and if I never pay for it before then, I will owe you the more when I die. We had made up our minds not to pay any of our debts, but since democracy has made such rapid strides to the front and logs got to selling at 7¢ per pound we have concluded to pay some of the most important ones, hence you are getting your money.

We have been having some solid winter since about the 20th of December, the ground having been blanketed with snow since then; 16° below zero was the coldest morning we have had. That's what we call splendid winter weather. Our stock so far has gone through in fine shape. We only hope they may do as well from now on.

—At Nashville, Tenn., the Cumberland river is frozen from bank to bank.

—The Meridian, Miss., foundry and machine shops have assigned with assets of \$40,000 and liabilities of \$25,000.

—Sunday was the coldest day of the winter in Louisville, the mercury dropping to 10° below 0. The dispatches indicate that the extremely cold weather prevailed over the country generally.

—Four thousand persons will sing and an orchestra of 200 will make music at the 27th National Saengerfest, to be held in Cleveland during the week beginning July 10.

—The reduction in membership has made it necessary to sell the new \$800,000 club house in New York, to satisfy a mortgage of \$350,000 held by Jacob Reppert.

—The art of paper-making has reached the point where it is possible to cut down a growing tree and convert it into paper suitable for printing purposes in the short space of 24 hours.

—In view of the fact that the State of Georgia has not made, and is not likely to make, any appropriation for an exhibit at the Columbian World's exposition, the Augusta Chronicle suggests a way of advertising the State. "If Georgia," it says, "will have a free distribution of Georgia watermelons and peaches on the fair grounds once or twice a week, after these fruits become ripe, she may succeed in getting talked about more than any other State in the list."

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Buckle's Arnica Salve and Electric Butters, and have never handled remedies that sell as well or that have given such universal satisfaction. We do not hesitate to guarantee them every time and we stand ready to refund the purchase price if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. A. B. Penny, druggist.
